- **Power supply to a set** - <https://stair-lighting.com/power-supply-voltage-mpl3012-p-245.html?language=en>

For the 10 stairs at home or outdoors, our proposed solution is inside the 10-tuple! Anyone who appreciates modern technology desk light does not need slogans to want to lower electricity bills, take care of your health, and in addition have a wonderful mood lighting.

We have assembled four essential elements - intelligent control for lighting the stairs, two motion sensors combined with dusk sensors, power supply and a 5-meter strip with 300 LEDs. Light sources are pale white in two variants to choose from: warm or cold. Installation is waterproof - withstands humidity to 93%, which qualifies it for use with a terrace or in the garden.

LED strips are self-adhesive. They have been tested on many surfaces - from wood through on granite stone and ending. According to the owners of the stairs with a classic design - the effects are wonderful. They also appreciate the possibility of self-assembly and wide range of accessories, such as connectors or LED profiles. It's the same thing we hear from owners of stairs openwork.

The proposed solution generates low power consumption. Light can light up only when the stairs are used, and only as necessary for this passage. Settings and dusk sensors allow the inflammation of illumination automatically after dark. The entire system maintains a stable power supply voltage of 12V. It is the power safe for adult and child.

It is not without significance for the visual effect is to add to a set of power amplifiers, allowing for the installation of lighting

even with balustrades.

This product has additional options:

Motion sensor - 2 pcs: T1 , T2 (+ 15.52 Euro), T4B (+ 51.74 Euro), T4B (+ 41.39 Euro)
