Maisonettes are increasingly fashionable spaces in the newly built blocks. The important role they play in the stairs - without them owning their own would not have such charm and the exam did not seem according to our needs. Narrow stairs to the second level of mixing. For such topic prepared flawlessly.

We offer energy-efficient intelligent lighting system. We based it on modern LED technology - through the 5-meter roll of tape with 300 LEDs. Light color to choose warm white or cool white. It is waterproof and adhesive. Laminate easily adapts to corners, which facilitates precise and durable assembly. The strength of the light sources is estimated at 50 thousand hours of continuous illumination - is a solution for years! On the strips production LEDs we give a guarantee for 2 years!

LEDs glow is made possible by intelligent controller settings. It maintains tension specialized modular power supply (12V safe). Complementary set of motion sensors and twilight. The motion detection range from 25 cm to 2 meters - depends on the parameters adopted within the space. It should also be mentioned power amplifier allowing the lighting railings or staircase glare LED tape.

In this way, welcoming space after a successful evening meeting, we'll get safely up there - to our sickbay more private, family retreat.
