## 13 stairs - A set of stairs lighting - lighting width 30 cm

Price	<b>196.62 Euro</b>
Availability	<b>Available</b>
Shipping time	<b>24 hours</b>
Number	<b>531</b>
Manufacturer	<b>RESTAN</b>

### Product description

Stairway lighting kit - using LED strip.

The kit includes

- **Intelligent controller to the stairs** - <https://stair-lighting.com/stair-light-controller-reactive-lighting-stair-lighting-system-automatic-led-stair-lighting-the-driver-for-lighting-effects-version-11-to-14-p-383.html?language=en>

- **Motion sensors dedicated to the controller 2 pieces** - <https://stair-lighting.com/motion-sensor-light-sensor-in-one-shortcircuit-no-or-nc-dedicated-to-intelligent-stairs-controllers-p-507.html?language=en>

- **Waterproof LED strip 1 roll (warm white or cool white)** - <https://stair-lighting.com/5m-led-strip-3528-300-diod5m-waterproof-warm-white-p-216.html?language=en>

- **Power supply to a set** - <https://stair-lighting.com/power-supply-voltage-mpl3012-p-245.html?language=en>

Sometimes it happens that in our residential area or garden, or having no longer place, we must use space located above. In this way, there is another element of architecture - narrow stairs. Perhaps a wall or a stone entrance to the high ledge garden located on a slope.

Regardless of whether we need to take care of the lighting in the yard or in the house, we have a set of devices that will work in all conditions. The controller. Motion sensors and twilight. Power supply. LED strip.

The entire system can be controlled through intelligent device with a number of options. Attractive lighting of the stairs is a broad term and for each means something else. For example - an inflammation of the lighting on the next steps included motion sensors that up to 3 meters are able to "observe" the approaching person. Mode works for both climb the steps and glide.

Another interesting option are three modes in idle mode. May not light or nothing extreme points, either all dim according to the settings.

The controller works not only LEDs but also from halogen, lamps, LED luminaires from other manufacturers. Voltage 12V in our system is safe for man and unlike standard electrical installations.

This product has additional options:

**Motion sensor - 2 pcs:** T1 , T2 (+ 15.52 Euro ), T4B (+ 51.74 Euro ), T4B (+ 41.39 Euro )
