Highlighting the stairs is today not only fashionable, but also became an important decorative element at the same time ensuring safety. We guarantee great results, thanks to intelligent oświetleniowemu for special space that are stairs. It includes a lighting controller and two motion sensors, two rolls of LED strip and power supply. The set was chosen so that it can be fitted own outside or in the room.

The strips of LEDs diodes we can often false ceiling, or in glass-fronted cabinets. This time, we propose to apply them at the edges of the stairs. Each contains 300 LEDs in the color of cold or warm white (optional). Every 3 LEDs can be cut strip without negative consequences for his actions. Both 5-meter tapes are made of white laminate, they are waterproof and have a self-adhesive surface. Well hold on stone, wood, or marble, but also in aluminum trays for mounting illumination.

All runs through the controller, but also with a proprietary voltage stabilizing power supply at 12V. Anyone, small or big man is not current strike. Technical parameters of individual cements that interact with each other to comfort of use was on the first place.

Complete with our products illuminate nooks and crannies of each step, allowing you to correctly assess its height and depth. In the case of designer stairs openwork further they emphasize their beauty and create an amazing theater of shadows after dark.

This product has additional options:

**Motion sensor - 2 pcs:** T1 , T2 (+ 15.52 Euro ), T4B (+ 51.74 Euro ), T4B (+ 41.39 Euro )
