More and more of us were playing longer LED lighting settings for the suspended ceiling. It's time to outside fun to take care of your safety on the stairs after dark. Take advantage of this advanced settings, which allows us to modern LED technology.

From years we have helped create intelligent lighting systems stairs to individual order. On the basis of experience and customer relationships we have selected a few devices and created sets of interesting technical parameters at a good price.

One of them is a set of 14 stairs serving highlighted with a width of 90 cm. Its members entered intelligent controller, two motion sensors and dusk, 3 rolls of 5-meter strip of LEDs and dedicated to this set modular power supply. It maintains the voltage at 12V - completely safe for adult and child.

The controller has a rich software. It can also work with other devices, or light sources that use LED technology. Thanks to the light can light up from top to bottom or vice versa. This may be the lighting or extinguishing a jumping mode. You can adjust the lighting activity time. The light source is LED, the 300 pieces on each tape. The strips are self-adhesive and water resistant. They can be cut into 100 pieces! Allowing them to create incredibly precise developed illuminations.

These parameters have to serve your comfort, safety and be a deep bow in the direction of financial savings. They will give joy to the skillful use of modern capabilities.

This product has additional options:

Motion sensor - 2 pcs: T1 , T2 (+ 15.52 Euro), T4B (+ 51.74 Euro), T4B (+ 41.39 Euro)
