15 stairs - A set of stairs lighting - lighting width 45 cm

Price	217.06 Euro
Availability	Available
Shipping time	24 hours
Number	863
Manufacturer	RESTAN

Product description

Stairway lighting kit - using LED strip.

The kit includes

- **Intelligent controller to the stairs** - <https://stair-lighting.com/stair-light-controller-reactive-lighting-stair-lighting-system-automatic-led-stair-lighting-the-driver-for-lighting-effects-version-11-to-14-p-383.html?language=en>

- **Motion sensors dedicated to the controller 2 pieces** - <https://stair-lighting.com/motion-sensor-light-sensor-in-one-shortcircuit-no-or-nc-dedicated-to-intelligent-stairs-controllers-p-507.html?language=en>

- **Waterproof LED strip 2 roll (warm white or cool white)** - <https://stair-lighting.com/5m-led-strip-3528-300-diod5m-waterproof-warm-white-p-216.html?language=en>

- **Power supply to a set** - <https://stair-lighting.com/modular-power-supply-12v-50w-415-mw50-p-466.html?language=en>

Intelligent controller, power supply and two motion sensors and two strips of LEDs forming a kit that allows to create lighting for the 15 stairs with a width of 45 cm. All these have created the lighting for safety use after dusk. Furthermore, they affect the efficiency of electricity. Finally, they should create a visually beautiful illumination.

Branded power supply ensures a stable voltage. The entire lighting system created works on 12V. This means that it is completely safe for adults and children.

A specific brain driver is set to the stairs, allowing the action program set adequate to the needs. I think the most interesting solution is the lighting of subsequent points of light, thanks to motion sensors. It should be emphasized that the "small field of vision" of the sensor causes that it does not respond when someone goes next to the stairs. A practical idea was also integrated into a sensor control device dusk.

The thing that performs these functions are of course two strips of 300 LEDs each. It can be cut in designated areas. Flexible white laminate with adhesive strip allows for precise glue on any surface, whether it's wood or stone. The whole thing is waterproof. LED life is estimated at 30-50 thousand hours.

The whole is designed for self-assembly - installation is very simple.

This product has additional options:

Motion sensor - 2 pcs: T1 , T2 (+ 15.52 Euro), T4B (+ 51.74 Euro), T4B (+ 41.39 Euro)
