18 stairs - A set of stairs lighting - lighting width 45 cm

Price	217.06 Euro
Availability	Available
Shipping time	24 hours
Number	609
Manufacturer	RESTAN

Product description

Stairway lighting kit - using LED strip.

The kit includes

- **Intelligent controller to the stairs** - <https://stair-lighting.com/smart-led-driver-for-lighting-stairs-driver-lighting-effects-version-1120-p-605.html?language=en>

- **Motion sensors dedicated to the controller 2 pieces** - <https://stair-lighting.com/motion-sensor-light-sensor-in-one-shortcircuit-no-or-nc-dedicated-to-intelligent-stairs-controllers-p-507.html?language=en>

- **Waterproof LED strip 2 roll (warm white or cool white)** - <https://stair-lighting.com/5m-led-strip-3528-300-diod5m-waterproof-warm-white-p-216.html?language=en>

- **Power supply to a set** - <https://stair-lighting.com/modular-power-supply-12v-50w-415-mw50-p-466.html?language=en>

Lighting of the stairs is a major challenge that poses the principal designer. Likewise, staircases, escalators in a detached house, whether those on the outside, for example. Garden - deserve to be effective and functional to emphasize their presence.

Overcoming the next steps with a relatively small beam of light from the lighthouse, or fast fading photocell in the building, it is often a challenge. Security should be the most important in the design of such an important place. Apparently, most accidents happen at home.

By creating our set for 18 degrees, we had the above-mentioned aspects in mind. We have assembled an intelligent controller with two motion sensors. To them we have selected an appropriate power supply operating at a voltage of 12V - harmless even for children. These allow the LEDs to operate the tape - here in two rolls of 5 meters. Our LED strips are made of a white laminate, which easily adhere to any surface by the adhesive tape. At each bar is 300 high-quality LEDs.

Important advantages has also said controller. It allows, among others, set the turning on and off lights consecutive points to bring them up to speed movement of a person using the stairs. The fact that at the moment of partial illumination effect on saving electric power, so that using significant amounts of stairs is noticeable in the electricity bill.

This product has additional options:

Motion sensor - 2 pcs: T1 , T2 (+ 15.52 Euro), T4B (+ 51.74 Euro), T4B (+ 41.39 Euro)
