Stairs, particularly when there are a lot of such. 18, are gaining importance because it plays an important function - facilitates movement. Once enough to put them in the garden with a lantern or hang a sconce on home staircase. Today, next to the LED luminaires mounted on the wall above the surface of each step, and we still have more practical solution - a strip of LEDs.

As a manufacturer of self-adhesive and water-resistant strips, through our experience, we understand what you are looking for. In the set are 4 rolls of 5 meters. Every 3 LEDs is a symbol of scissors and can be without prejudice to the current flow - cut. We offer a product durable (30-50 thous. Hours of use) to be used on many surfaces (from wood to granite) and for each type of staircase, whether traditional or openwork. Power amplifiers will illuminate the railings.

The intelligent lighting and extinguishing the lights will take care of a specialized driver. It has a rich software. Lighting can operate fragments in the directions from top to bottom or vice versa. This is possible thanks to two motion sensors with our set. You have set the viewing angle, so you do not react when someone passes by. When we touch any item set, nothing to worry about, because the whole has stabilized voltage at 12V, thanks to a dedicated power supply modular.

Such functionalities, such as adjustable lighting time, and others, make our set of devices practical, economic and magical in its effect.
