The use of a home can change when another family arrives, eg. Children grow up and get married. Then we adapt attic into a bedroom, living room or bathroom, or several rooms. When designing adaptation was not planned, therefore, the plan does not include space for traditional, simple steps. Then we try to organize a winding staircase or cheek, but narrow.

Whereas greater use of previously neglected space, we propose the installation of a lighting system, which in an intelligent manner and in accordance with the settings take care firstly for the safety of more numerous family, and give a great effect illumination after dark.

We therefore offer 4-piece set. 10 meters LED strips in two rolls to their installation in all corners on a variety of surfaces from wood to marble. Strip of LEDs is waterproof and adhesive. It is easy to use it outdoors and at home.

A constant voltage of 12V maintain a dedicated set of modular power supply MEANWELL brand. It works with an intelligent controller, so that realize the most sophisticated regulations illumination. It has on-off mode, ankle rise and fall or liquid.

Having the right moment action will ensure two light sensors, motion/twilight sensors. It is thanks to the system knows when a

user approaches the stairs and when you need to ignite or extinguish the LED. Similarly twilight sensors tell the system when it is too dark or when the sun comes out again.

This product has additional options:

**Motion sensor - 2 pcs:** T1 , T2 (+ 15.52 Euro ), T4B (+ 51.74 Euro ), T4B (+ 41.39 Euro )
