- **Power supply to a set** - <https://stair-lighting.com/modular-power-supply-12v-50w-415-mw50-p-466.html?language=en>

Sign of the times is the fact that the stairway lighting has become the rule, fashionable rule. You can design them according to your needs and preferences. They allow you to include LED strip - the invention extremely functional and practical. Here is invaluable precision with which you can adjust a light source. The substrate of the product of our store is made with a white flexible laminate, which contains a self-adhesive strip. Narrow laminate can be adapted to many corners, which is not lacking in the case of such places, such as. Staircase.

The proposed set to light 19 degrees, we give two rolls of waterproof LED strip. The white color of light is a choice of two variants: warm or cold. The advantage of LED technology is its compatibility with intelligent controller. Includes prepared such a device with a power supply that matches here and two motion sensors. The latter enable this setting light to gradually lighten and conform to a moving speed of a person entering or coming down.

The effect of illumination light based on the above-mentioned possibility is remarkable. On the one hand it must be emphasized aesthetics. On the other hand, the safety that it provides users. It should also be noted that elements of the kit can also be used with luminaires and LED bulbs from other manufacturers. As well conceived a whole will serve inside and outside the building.

This product has additional options:

Motion sensor - 2 pcs: T1 , T2 (+ 15.52 Euro), T4B (+ 51.74 Euro), T4B (+ 41.39 Euro)
