Product description

Stairway lighting kit - using LED strip.

The kit includes

- **Intelligent controller to the stairs** - <https://stair-lighting.com/smart-led-driver-for-lighting-stairs-driver-lighting-effects-version-1120-p-605.html?language=en>

- **Motion sensors dedicated to the controller 2 pieces** - <https://stair-lighting.com/motion-sensor-light-sensor-in-one-shortcircuit-no-or-nc-dedicated-to-intelligent-stairs-controllers-p-507.html?language=en>

- **Waterproof LED strip 3 roll (warm white or cool white)** - <https://stair-lighting.com/5m-led-strip-3528-300-diod5m-waterproof-warm-white-p-216.html?language=en>

- **Power supply to a set** - <https://stair-lighting.com/modular-power-supply-12v-75w-625-rs75-p-467.html?language=en>

LED controller - for lighting stairs - provide a unique visualization of lighting stairs . Light effects achieved with their help through the spectacular lighting of the following points of light on the stairs and attractive stair lighting - lighting optimize the interior of the apartment .

Use of stair controller is not limited to use them for stairway lighting stairs or themselves. Invention architects can obtain LED lighting effects also in the hallways, sidewalks , hallways, garden , garage entrances .

Smart House is not just control of heating , blinds or contacts it also saves energy through aesthetic and environmentally friendly lighting stairs. Another lighting up the stairs - incorporated special motion sensors that detect traffic approaching the stairs person , allows you to safely navigate the stairs up and down .

Universality of our controller to the lighting of the stairs with the help of LED technology , will allow you to use for this purpose both : LED strips, LED bulbs , LED fixtures such as SKOFF , BRILUX or PAULMANN . The design of the controller as well as our sensor allows for direct cooperation with ones producers.

With the most commonly used LED strips , you can use either the tapes monochrome (single color) as RGB strips and gain access to unlimited palette of colors actually .

Our systems for lighting stairs are safe as they operate using 12V voltage that is safe for humans . Accidental touch LED strip does not threaten human life , as is the case with standard electrical installations.

In designing our controller for lighting stairs , we thought comfort of its users . The drivers support from 5 to 35 steps, LED strips , LED bulbs , 12V halogen luminaires popular manufacturers. Our motion sensors provide comfort by being able to adjust the scope of their activities (not enclose the stairs when someone walks past them) , narrow-angle "view" , built-in light sensor .

Stair lighting controller can be used both at the stairs of wood , stone , marble or granite . Perfect for stairs traditional and openwork using aluminum profiles for LED lighting and without them.

To our controllers for lighting stairs we also offer - power amplifier - allowing plugging into the channel load to 18A . This enables LED lighting stair railing , staircase glare of LED strip. Do you also use LED strip lighting stairs with a power greater than 1A on one of the stairs .

This product has additional options:

Motion sensor - 2 pcs: T1 , T2 (+ 15.52 Euro), T4B (+ 51.74 Euro), T4B (+ 41.39 Euro)
