Proper lighting stairs provides safety to people using them. Here again become invaluable LED solutions. They allow precisely to emphasize shape, width and depth of each stair. This provides comfortable movement.

Our proposal set for 20 degrees with a width of 45 cm, allows primarily to save money. This is felt in your wallet when you want to illuminate the number of stairs.

The set will receive an intelligent controller to the stairs and dedicated to him two motion sensors. In addition, two rolls of tape waterproof LED white solid hot or cold - for selection. A suitable power supply, matching the set.

Drivers allow you to, among others, light more points of light on the stairs. Thanks to its properties, the designers recommend them to be used in gardens or at the entrances to the garage. Devices not only work directly with LED strips, but also with diodes bulbs or fixtures manufacturers such as SKOFF, BRILUX, LEDIX or PAULMANN. Power amplifiers that can be bought, for every purchased from us give the controller more extensive usability, for example to highlight the railing.

Our lighting systems use 12V. This means that they are safe for small and large man. In addition, they can be mounted on various types of stairs. As well they suit the stone, or wood.

This product has additional options:

Motion sensor - 2 pcs: T1 , T2 (+ 15.52 Euro), T4B (+ 51.74 Euro), T4B (+ 41.39 Euro)
