5m LED STRIP 3528 600 diod/5m - proffesional

Price	43.98 Euro
Availability	Availability - 3 days
Shipping time	48 hours
Number	1408
Manufacturer	RESTAN

Product description

LED strips - a modern solution capable of lighting advertising , furniture, shop windows and decorative lighting and utility rooms. LED strips offer minimal power consumption while providing high performance light. The small size combined with flexibility allows its use PCB where other light sources do not permit their assembly , or is difficult. The use of LED strip leaves only limited by your imagination .

Products offered by RESTAN feature - the highest quality of workmanship , found thanks to the recognition of the various embodiments where the investor require reliability and durability of LED lighting . LED strip production is monitored at every stage - from purchasing the highest quality components in the packaging process . This attention to detail ensures its reliable operation for many years.

Components for each tape led to : the highest quality LEDs , PCB laminate tested , selected resistors . Yes precise selection of components allows you to ensure uninterrupted operation LED strips for many years. Each roll of tape led a process of thorough quality control , ensuring our customers receive the highest quality merchandise.

LED strip is a solution which works for any type of room. LED strip 5m SMD 3528 600 LEDs / 5m - proffesional allows the use of light advertising, furniture, shop windows, and others. Numerous possibilities of use make this product enjoys popularity among buyers.

LED strip 5m SMD 3528 600 LEDs / 5m - professional check up well wherever you are missing opportunities to create another source of light. The led strip has a length of five meters, but its design allows it to trim every 3 LEDs. A choice of several colors of light emitted by the belt. It is the color of warm white, cool white, neutral, blue, red, green and yellow.

When buying LED strip but important is the way the assembly. This product is very easy to use. Just a special adhesive tape that, without any obstacles put LEDs in exactly the place where they are to find. Due to the creation of its own installation LEDs can handle even those who normally do not deal with this type of activity.

Professional LED strip ideally suited for the professional applications. You can be sure of the best quality, which only confirms the guarantee offered up to two years. The light you will enjoy for a really long time. See that excellent quality LED lighting is for you priority. This solution is energy efficient and environmentally friendly. LEDs even after its consumption does not degrade the environment, because this product does not have the composition of hazardous chemicals.

TECHNICAL SPECIFICATIONS

Size 8mm x 2.9 [mm]

Power supply - 12 V DC

Current consumption - 4A/5m (0.8 A / m)

Power consumption - 48W/5m (9.6 W / m)

Type of LEDs used - SMD 3528

Number of LEDs - 600

LED angle 120 degrees

LED strips can be cut - cut line marked every 3 LEDs

Flexible laminate substrate (white)

Mounting 3M adhesive tape placed on the laminate

Life 30 000 - 50 000 hours

Available Colours:

- Warm white - 2900-3200K
- Neutral - 4000-7000K
- daylight white 4000-4500K
- White cold - 7000-13000K
- Red - 620 nm (+/- 3%)
- Green - 520 nm (+/- 3%)
- Blue 460 nm (+/- 3%)
- The yellow of 590 nm (+/- 3%)

This product has additional options:

Color of light - led strip: Warm white , Cold white , Daylight white (+ 7.00 Euro), Neutral , Blue (+ 6.36 Euro), Red (+ 6.36 Euro), Green (+ 6.36 Euro), żółty / yellow / Gelb (+ 6.36 Euro)
