Stairs is a unique place, both at home and outside. Increasingly, we observe fashionable LED illuminations. Most are suspended and illuminated ceilings. Similarly it begins to happen with stairs just.

We begin to respect our right to safe mobility. Once popular flashlight is not always passed the test after dark. Then our beautiful gardens deserve building blocks of mood, highlighting the effects of the work done.

A practical solution is self-adhesive and waterproof LED strip. We do such practical strip of laminate containing 300 LEDs, we joined intelligent lighting controller with motion sensors and power supply. The result is a system that allows illuminate the space so demanding that there are different types of degrees (wood, stone, marble ..., traditional, openwork).

Thanks to our set light lights up only when someone enters the stairs. Illumination is activated in the passage, the most needed, to put safely foot. In this way one is Eko. The controller works with light sources from other manufacturers and with other types, such as light bulbs, and LED fixtures. In contrast, maintains a constant voltage power supply, ensuring that even touching the tape with LEDs, will not do harm to an adult and most of all - child.

Our set is reasonable, economical, ecological and above all safe proposal in the world of lighting.

This product has additional options:

**Motion sensor - 2 pcs:** T1 , T2 (+ 15.52 Euro ), T4B (+ 51.74 Euro ), T4B (+ 41.39 Euro )
