Stair motion controller - for 8 stairs allows you to forget about having to turn on and off lights. Thanks to the special sensor light comes on only at the time of entry on stage - it is not possible to have joined when passing next to the stairs. Modern LED technology used in the production of this kit increases the comfort of use, but not only, because at the same time is a great addition increasing the aesthetic quality of the interior. Thanks to the optional RGB strips of unlimited palette of colors you can create a unique arrangement of lights, which ensure that the room will be more climate. In addition to the convenience and aesthetic appearance it is also a good way to increase household security. Adequate lighting will help prevent injuries stairs on the way to the bathroom or when searching for the light switch.

Lighting kit with the controller would be a good solution for every kind of stairs, ranging from traditional wooden models, the modern staircase of stone, marble and granite. The kit consists of an intelligent controller to the stairs, two motion sensors, waterproof LED strip and power supply. Installation is easy, you can do it yourself, just follow the attached instructions.

This product has additional options:

Motion sensor - 2 pcs: T1 , T2 (+ 15.52 Euro), T4B (+ 51.74 Euro), T4B (+ 41.39 Euro)
