Product description

Important Information

The purchase a piece in the store means the purchase 1 linear meter of the profile or cover

If you want to buy a profile that has a length of 2 meters you have to buy 2 pieces, 3 meters you have to buy 3 pieces, and the multitude of quantity when ordering.

The total length of the aluminum profile or the panel to the profile - is the total quantity of the piece number that was bought in the store.

The choice of the appropriate shipping method will take place at the end of the order process.

[The details of the shipping method and packaging of the aluminum profiles you will find here \(click in the link\)](#)

Accessories: covers, end caps and other available in the tab [accessories](#)

Profile LED is used to protect and accurate alignment strip with LEDs. Thus, the appearance of lighting in the space precisely corresponds to the draft. Anodized profile is an accessory that material or aluminum, has undergone electrolytic passivation. As a result, the metal surface is corrosion protection and better holding onto the dye. Aluminum is lightweight and durable and compact size allow the placement of strips in many places. This model remains to be any arrangement or placed between two walls, slabs, or as a decorative element if the neutral color suits them.

The total width of the profile is 19mm, the width of the trough - 14mm and height - 8mm.

Profile recessed into the surface chipboard plaster or ceramic tiles.

To illuminate the interior furniture, cabinets, paintings, exhibition and shop windows.
