### Product description

#### Important Information

The purchase a piece in the store means the purchase 1 linear meter of the profile or cover

If you want to buy a profile that has a length of 2 meters you have to buy 2 pieces, 3 meters you have to buy 3 pieces, and the multitude of quantity when ordering.

The total length of the aluminum profile or the panel to the profile - is the total quantity of the piece number that was bought in the store.

The choice of the appropriate shipping method will take place at the end of the order process.

[The details of the shipping method and packaging of the aluminum profiles you will find here \(click in the link\)](#)

**Accessories: covers, end caps and other available in the tab [accessories](#)**

The newest of our products - aluminum profile to LED strip is small in size, making it perfect to highlight selected items of furniture. Its width is 1.4 cm and height - 0.8 cm. Metal has been subjected to the anodizing process by which strengthened its protection against mechanical damage and rust. In addition, the dye is applied more durable and indelible.

We see him as a security element and at the same time highlight glazed display cabinets and all other such small spaces, niches, barges, cupboards, shelves ...

We leave you the choice of aperture, whether it be transparent or milky. Everything will depend on the type of illuminated exposure.

Profile recessed into the surface chipboard plaster or ceramic tiles.

To illuminate the interior furniture, cabinets, paintings, exhibition and shop windows.
