### Product description

#### Important Information

The purchase a piece in the store means the purchase 1 linear meter of the profile or cover

If you want to buy a profile that has a length of 2 meters you have to buy 2 pieces, 3 meters you have to buy 3 pieces, and the multitude of quantity when ordering.

The total length of the aluminum profile or the panel to the profile - is the total quantity of the piece number that was bought in the store.

The choice of the appropriate shipping method will take place at the end of the order process.

[The details of the shipping method and packaging of the aluminum profiles you will find here \(click in the link\)](#)

**Accessories: covers, end caps and other available in the tab [accessories](#)**

New 2015 Profile LED made of anodized aluminum with an open corner. It is intended to install the profile strips LED dedicated cavities - right angles, for example. Ceiling in the wall. However, there is an additional opportunity - a free space hidden deep in the corner, thin wires or any other reinforcement, eg. Assembly, or seal - it all depends on the idea and where is to operate lighting.

This profile is anodized, ie beyond a small weight and strength, it has been further strengthened by a chemical process and is resistant to rust and mechanical damage.

Natural color metal works in popular lighting solutions.

The dimensions of 12mm x 23mm, as shown.

Profile recessed into the surface chipboard plaster or ceramic tiles.

To illuminate the interior furniture, cabinets, paintings, exhibition and shop windows.
