### Product description

#### Important Information

The purchase a piece in the store means the purchase 1 linear meter of the profile or cover

If you want to buy a profile that has a length of 2 meters you have to buy 2 pieces, 3 meters you have to buy 3 pieces, and the multitude of quantity when ordering.

The total length of the aluminum profile or the panel to the profile - is the total quantity of the piece number that was bought in the store.

The choice of the appropriate shipping method will take place at the end of the order process.

[The details of the shipping method and packaging of the aluminum profiles you will find here \(click in the link\)](#)

Anodizing is a process in which aluminum is gaining as a result corrosion protection and is durable to mechanical damage. The model proposed here to attach anodized aperture milk, taking care of gentle light scattering. Thus, we have the product ready for use - allowing the plate or a cavity in the wall. LED strip carried out in its 14-millimeter tray perfectly meet their lighting task - to create the mood and decorate the space.

Profile LED can be part of an intelligent lighting system. It is often used to illuminate stairs or display cases or shop windows. With the iris expressive LED light becomes softer to the eye.

Profile recessed into the surface chipboard plaster or ceramic tiles.

To illuminate the interior furniture, cabinets, paintings, exhibition and shop windows.
