Product description

Important Information

The purchase a piece in the store means the purchase 1 linear meter of the profile or cover

If you want to buy a profile that has a length of 2 meters you have to buy 2 pieces, 3 meters you have to buy 3 pieces, and the multitude of quantity when ordering.

The total length of the aluminum profile or the panel to the profile - is the total quantity of the piece number that was bought in the store.

The choice of the appropriate shipping method will take place at the end of the order process.

[The details of the shipping method and packaging of the aluminum profiles you will find here \(click in the link\)](#)

Recessed LED profile, the color of pine wood, is our response to market demand. More and more, our customers asked us for such aluminum profiles that are protected from rust, more resistant to mechanical damage, which fit with the interior color. So in our offer we include profiles for inexpensive colored LED strips. Pine is a very versatile color to match the many styles. This color could not miss it! The accessories are immediately end caps perfectly matching to the subject.

Profile attach a milky veil, which protects the LED diodes and a little smudge vivid light that they emit. The profile is small. At its widest point is 21 mm, 14 mm inside the trough and is high at 8.7 mm.

Profile recessed into the surface chipboard plaster or ceramic tiles.

To illuminate the interior furniture, cabinets, paintings, exhibition and shop windows.
