Product description

Important Information

The purchase a piece in the store means the purchase 1 linear meter of the profile or cover

If you want to buy a profile that has a length of 2 meters you have to buy 2 pieces, 3 meters you have to buy 3 pieces, and the multitude of quantity when ordering.

The total length of the aluminum profile or the panel to the profile - is the total quantity of the piece number that was bought in the store.

The choice of the appropriate shipping method will take place at the end of the order process.

[The details of the shipping method and packaging of the aluminum profiles you will find here \(click in the link\)](#)

The most sophisticated among our offer of colored aluminum profiles. We offer a golden aluminum profile to LED strip. On the one hand, it can brighten the interior, on the other add elegance. Certainly adds an element "that thing" for the color of the light. The most common is recessed into the surface of furniture boards, plasterboard and ceramic tile. Its mission is to protect the LED strips, to facilitate their installation and with milk cover, which attach - creating an interesting effect founded illumination.

The item by itself is light and durable, but thanks to anodising its properties have been strengthened, especially towards corrosion protection, protection against mechanical damage or fixation of the dye on the surface.

Size: width 21 and 18 mm outside. 14 mm in the bottom tray. 8.7 mm height.

Profile recessed into the surface chipboard plaster or ceramic tiles.

To illuminate the interior furniture, cabinets, paintings, exhibition and shop windows.
