Product description

Important Information

The purchase a piece in the store means the purchase 1 linear meter of the profile or cover

If you want to buy a profile that has a length of 2 meters you have to buy 2 pieces, 3 meters you have to buy 3 pieces, and the multitude of quantity when ordering.

The total length of the aluminum profile or the panel to the profile - is the total quantity of the piece number that was bought in the store.

The choice of the appropriate shipping method will take place at the end of the order process.

[The details of the shipping method and packaging of the aluminum profiles you will find here \(click in the link\)](#)

Anodized, LED profile, made of aluminum, in addition to its practical function - cover for the LED strips, works well in the role of decoration. After the process of anodizing the metal is obtained characteristic matte texture. Through it, for example after touching the surface of the hand are not traces. In addition, aluminum alloys are protected mechanically and against rust.

This profile need not be hidden, it is more resistant to the action from the outside. For example, be useful. Backlight furniture. Milky veil somewhat more subdued color clarity, which effectively illuminate only and will not turn attention away from the objects enclosed in a cabinet behind glass.

18 and 9 mm, the size of the outside. The interior of the 14 mm wide.

Profile recessed into the surface chipboard plaster or ceramic tiles.

To illuminate the interior furniture, cabinets, paintings, exhibition and shop windows.
