Product description

Important Information

The purchase a piece in the store means the purchase 1 linear meter of the profile or cover

If you want to buy a profile that has a length of 2 meters you have to buy 2 pieces, 3 meters you have to buy 3 pieces, and the multitude of quantity when ordering.

The total length of the aluminum profile or the panel to the profile - is the total quantity of the piece number that was bought in the store.

The choice of the appropriate shipping method will take place at the end of the order process.

[The details of the shipping method and packaging of the aluminum profiles you will find here \(click in the link\)](#)

Anodized aluminum profile LED is a light and durable design for easy installation of LED strip and create a beautifully lit interior. Our collection of colorful profiles for mounting perpendicular joints, fits into any interior.

Pine is the color most universal - ideally suited for lighting kitchen cabinets, whether in the office or nursery. Milky aperture makes light is less intense than directly with LEDs, for building a warm, friendly environment.

The process of anodizing aluminum to which it is subjected to strengthen its resistance to scratches and other mechanical damage. What is important - also works against corrosion and makes of the better kept on the dye or veneer.

Dimensions outside the 14.5 mm x 26 mm.

Profile recessed into the surface chipboard plaster or ceramic tiles.

To illuminate the interior furniture, cabinets, paintings, exhibition and shop windows.
