Shipping time	4 days
Number	2884
Manufacturer	Mi.Light

Product description

Pilot MILIGHT - 4-Zone RGB + CCT Smart Panel Remote Controller - B4 has a very wide range of applications.

LED RGB lighting allows for great-looking colors of light. It's really varied color emitted by the LED, is responsible for the enormous success of this project. More and more people want to follow a fashionable trend, which is also the installation of intelligent lighting in your home. Many people while getting a well installation RGB LED strip. This is where the controller was created MILIGHT - 4-Zone RGB + CCT Smart Panel Remote Controller - B4. It allows you to change all light settings. The result is a stunning look and the ability to change color on request. It's a great solution.

Proposed in our shop control panel, the device of the XXI century. It's touch, so in an easy, friendly way to quickly change parameters. Its small size and nice, but not catching very eyes look even more suited to a modern interior. The operating range within WiFi installation is 30 meters. This inexpensive device which will facilitate daily life. We recommend it especially for entrepreneurs who want to enter into his office a little more modern and comfortable solutions. Milight system, which element is the 4-Zone RGB + CCT Smart Panel Remote Controller - B4, allows for large savings in electricity consumption. This solution is ecological and economical, suitable for the growing needs and business opportunities.

Product Name: 4-Zone RGB+CCT Smart Panel Remote Controller
Model No.: B4-B
Working Temperature: -20 -60°C
Voltage: 3V(2*AAA Battery)
Transmission Frequency: 2400-2483.5MHz
Modulation Method: GFSK
Transmitting Power: 6dBm
Control Distance: 30m
Standby Power: 20uA
Panel Size: 86*86mm

4-Zone Panel Remote (RGB+CCT)

Free installation, no wiring, magnetic holder, start your smart life

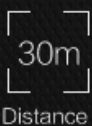

Simple but multi-functional

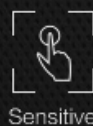

NO wiring

Mode

Magnetic holder

Powerful magnets can attach the panel remote control to the base

2.4G wireless transmitting Control distance 30m

Free installation, no wiring, more convenient and smart

4-zone individually control

Each zone control countless lamps or controllers

Control RGB/RGBW/RGB+CCT series products

It can control Mi-Light and MiBoxer RGB/RGBW/RGB+CCT lighting products

Color temperature/ saturation adjust randomly

Adjust CCT under white light mode(2700-6500K);
Change color saturation under color mode

1~100% Brightness dimming

Dimming(1%~100%) the light randomly

9 color changing modes

9 color changing modes,
choose the color atmospheres you want

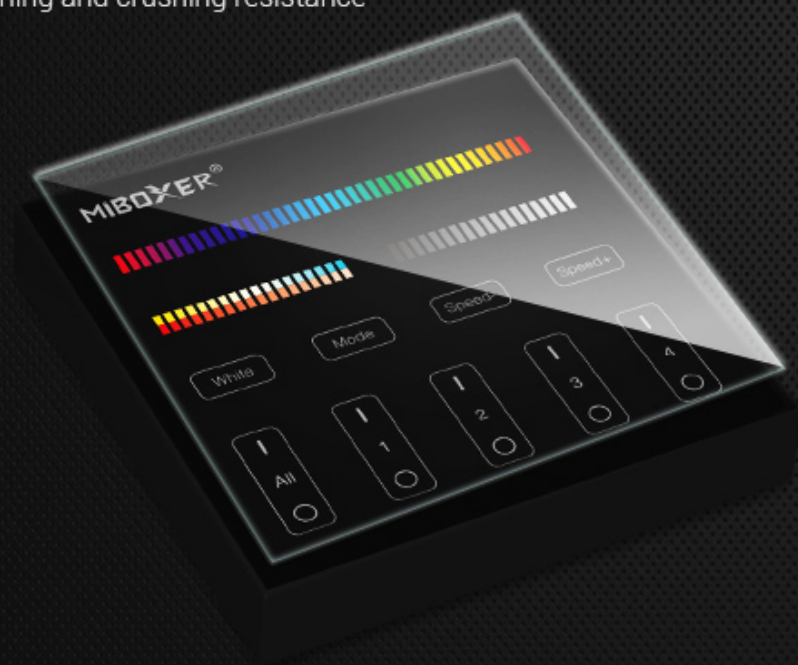

Sensitive touching

High precision Capacitive touch screen IC,
Touch Screen is very stable

High-end tempered glass panel

Tempered glass panel, scratching and crushing resistance

Touching button with sound

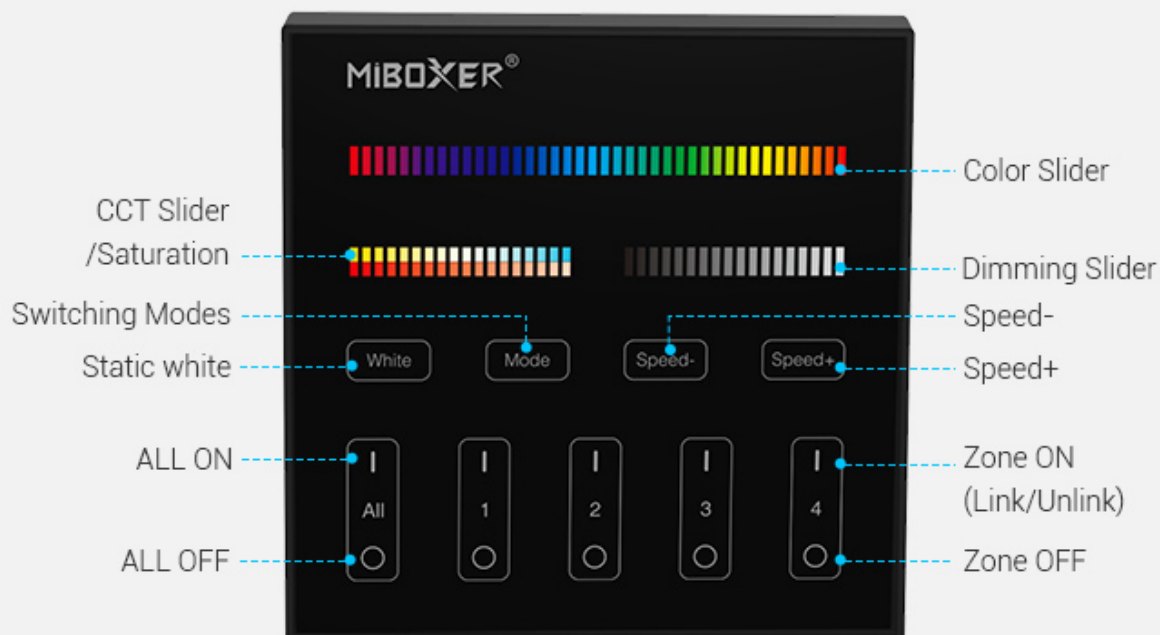

When touching the button, LED indicating lamp will flash once with different sound

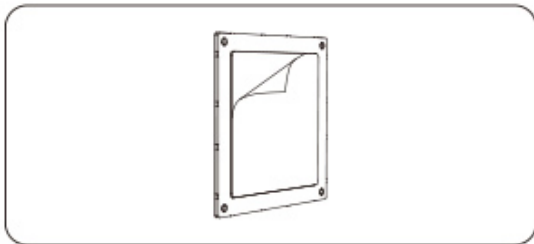

Power by 2 AAA battery

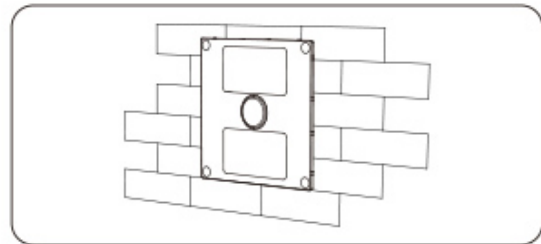

Button Function Diagram

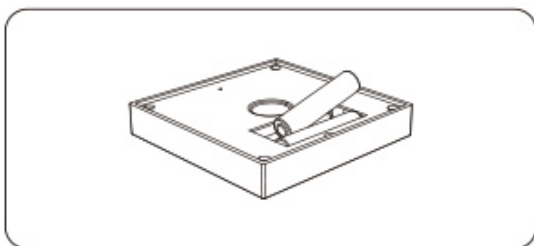

Installation

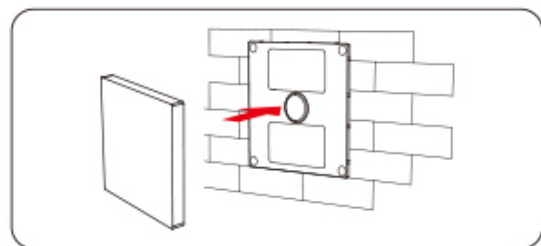

1. Tear out the back tape

2. Stick the holder on the position where you want

3. Install 2*AAA battery

4. Put the rotating switch on the front of holder
