Ceiling fixture - square - GU10 socket for 230V - Satin - Waterproof

Price	11.64 Euro
Availability	On order
Number	330
Manufacturer	NUCLEUS-TECHNOLOGY

Product description

Recessed into the ceiling, made of cast aluminum. It is equipped with silicone gaskets, providing high resistance to water penetration. As a light source used low-voltage halogen bulb MR-16 with a maximum power 50W or GU-10 (light source is not included with the luminaire). The bulb is enclosed by glass. Binding requires a power supply for halogen bulbs. Applications: ideal for spot lighting in bathrooms, saunas, kitchens, and wherever there is a heightened degree of humidity.

Specifications:
