Cutting aluminium profile

Price	1.29 Euro
Availability	Available
Shipping time	3 days
Number	2172
Manufacturer	RESTAN

Product description

A professional machine park allows you to cut aluminum profiles with an accuracy of 0.5mm. By entrusting us with the cutting service you are sure that you will receive aluminum profiles cut to the ordered length. Our cutting technique allows simultaneous cutting of the LED profile together with the cover - guarantees the same length of both elements. This is of great importance at the final assembly.

The price is for one cut profile or cover
