Power: 35W
White LED Power: 30W
RGB LED Power: 30W
Voltage: AC86-265V / 50-60Hz
Kelvin: 2700-3200K / 6000-6500K
Luminous Flux: 3100-3200LM
Luminous Efficiency: 95LM/W
CRI: >80
Beam Angle: 160°
PF: ≥0.93
Material: Aluminum Material
IP Rate IP65
Size: 170*62*190mm
Application Areas: garden, doors, garages

MILIGHT bulbs are points of light can perform a variety of functions, including the main form interior lighting and decorations. Manufacturer deliberately created his light source so that you can use widely available in the lamps holes for screwing light bulbs - their handles are made in the most popular sizes.

Similarly constructed bulb is proposed on this site - the size of the cap is E27. A characteristic feature of the model is extended shade, resemblance to the shape of the stand. It is purposeful construction, because with this shape is improved in scattering of light.

Like most good lighting equipment using LED technology, too, and here durability is estimated at 50 thousand. hours, which in practice can mean up to 25 years of operation. The product fully recycled, mercury-free, energy-efficient.

Recommended for use wherever there will be no additional lighting installed, and when the light is to be directed at a specific point. Ideal for floor lamps, especially those with cover open up and down in order to fully utilize the increased diameter of the lens bulb. In the same way the light spot check in hanging lamps.

For Milight lamps may be grouped and it does not matter the number in the group. Assigns them to the controller using the remote control, just remove it. Group may be all the points the light in the room, only light at their desk, or just hanging lamp

- there is full freedom.

Automatic Commands Transmitting Function

One floodlight can send the commands from the remote control to another, which makes the control distance limitless. (The distance from one light to another has to be within 30M)
