FUT042 Miboxer LED driver - RGB - set with remote control

Price	20.44 Euro
Availability	Available
Shipping time	4 days
Number	2898
Manufacturer	Mi.Light

Product description

Product Parameters

433MHz RGB LED Strip Controller

Input Voltage: DC12V~24V

Output: 6A/Channel

Total Output: Max 12A

RF: 433MHz

Control Distance: 30m

Output Connection: Common anode

Working Temp.: -20~60°C

Remote Control

Working Voltage: 3V(2*AAA Battery)

Standby Power: 20uA

RF: 433MHz

Transmitting Power: <10mW

Modulation Method: ASK

Control Distance: 30m

Working Temp.: -20~60°C

Modern LED dimmers are an excellent choice for people looking for modern systems that allow you to control the lighting in the interior. A set consisting of a controller and a remote control enables easy management of the lighting system throughout the apartment and makes the convenience of using LED panels significantly increase. The remote control is able to operate up to a distance of 30 meters and has all the most important functionalities. Using the controller, you can change both the backlight color and its intensity. Therefore, reach for the solutions from our offer and make lighting management much more modern.
