GIP mounting bracket - 24310

Price	1.97 Euro
Availability	Availability - 3 days
Shipping time	3 days
Number	1954
Manufacturer	KLUS

Product description

GIP mounting bracket is designed as a method of installing architectural profiles (GIP, GIZA, LIPOD) and other profiles with similar section and same dimensions. Made of plastic, the bracket is attached to the surface with the use of an appropriate screw. Mountage of the profile itself is done by clicking it into the bracket. Removing the fixture requires some excessive force, which prevents it from accidental detachment. Removing the profile on purpose can be done for example by levering the profile with a flat-blade screwdriver.
