Product description

MILIGHT bulbs are points of light can perform a variety of functions, including the main form interior lighting and decorations. Manufacturer deliberately created his light source so that you can use widely available in the lamps holes for screwing light bulbs - their handles are made in the most popular sizes.

Similarly constructed bulb is proposed on this site - thread is E27. 2in1 is a type of light bulbs. No additional drivers and integrate with other devices in the system, is a classic bulb. However, in the context of Milight it is a point of light intelligent and meets all modern standards. With remote control can change the intensity of the light, the color and mode of operation. Luminous flux is a variant of RGB and / or warm or cold white.

For Milight lamps may be grouped and it does not matter the number in the group. Assigns them to the controller using the remote control, just remove it. Group may be all the points the light in the room, only light at their desk, or just hanging lamp - there is full freedom. Similarly, the ease of use - modern technology and Wi-Fi router with regard to the application on two widely used operating systems on mobile devices is a guarantee of luxury and full use of their creativity for lighting.

As with all LED light points created within the brand Milight, its durability is estimated at 50 thousand. burning hours, which in practice gives even 25 years of a fully satisfactory environmental lighting product.

Get ready for a completely new quality of lighting, due to Milight bulbs 4W MR16 RGB LED Spotlight + CCT - FUT104. It is a proposal prepared for the lovers of modern solutions and technological innovations. Production of the company with years of experience at the same time guarantees the quality of this solution.

Milight bulb 4W MR16 RGB LED Spotlight + CCT - FUT104 fit most lamps, because it has E27. It can be used in two different ways. First of all, it replaces the classic light bulb, which with pre-installed in the interior of the LEDs is a solution very economical and ecological. Secondly, through the use of additional controller and integrate it with other devices in the system, it can become a professional piece of equipment smart home. The remote control allows an individual to set many parameters such as light intensity, color, and its mode of operation. Appreciate it especially people running their own business.

This product has a significantly extended service life, estimated at as twenty five years respectively, or approximately fifty thousand hours of illumination. As a result, the exchange takes place very rarely, which directly translates into the operating costs of the building. Do not forget also about the lower power consumption. LED bulbs are not hot.

Presented a proposal bulbs Milight allows care of many details, such as the color of the light beam with built-in RGB variant. This convenient option for people who like to change the details that affect the appearance of the entire environment. Thanks to these ecological and economical LED bulbs, you can really save a lot, which will certainly affect your satisfaction.

Product Name: 4W MR16 RGB+CCT LED Spotlight
Model No: FUT104
Power: 4W
Voltage: AC86-265V / 50-60Hz
Kelvin: 2700-6500K
Luminous Flux: 250-280LM
Luminous Efficiency: 70LM/W
CRI: >80

Base Type: MR16
Beam Angle: 25°
PF: >0.55
Material: Aluminum+PC
Control Distance: 30m
Size: Φ50*57mm
Application Areas: houses, restaurants, bars, etc

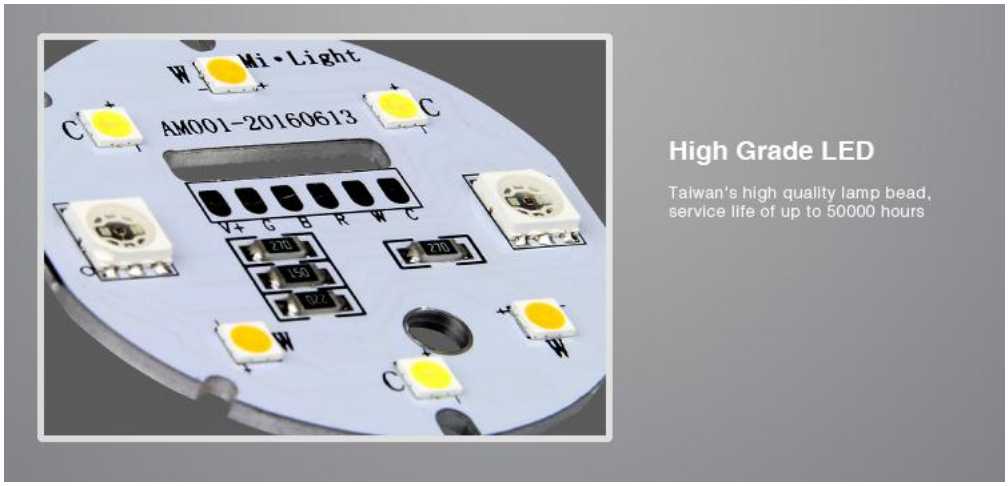

16 million colors to choose, adjustable brightness,
color temperature and saturation

WiFi Enabled Smart Phone Control
Link your smartphone to the WiFi iBox, you are
free to control the spotlights with your phone.

Bedroom
Restaurant
Sitting Room
Cookroom

Acrylic Transmitting Cover
Using imported PC pervious to light cover,
light transmittance over 90%

Lamp Body
Flame retardant material,
long-term heat resistance
Mi·Light®
RGB+CCT LED Bulb
4W AC/DC 12V

High Grade LED
Taiwan's high quality lamp bead,
service life of up to 50000 hours
