Product description

- **Product Name: 2.4GHz Single Color LED Controller**
- Model No.: FUT036S
- Working Voltage: DC12V~24V
- Working Temperature: -10~40°C
- Output: Max 12A
- RF: 2.4GHz
- Control Distance: 30m
- Output connection: Common anode

The LED dimmer is a product aimed at people looking for a device that allows you to control LED lighting in the apartment. The proposed dimmer is designed to work with single-color tapes and allows for convenient lighting control. The range of the device is up to 30 meters. The device can also be connected to the smartphone application. Thanks to this, you will always have a remote control for remote control of LED strips and switching them off if necessary. We cordially invite you to check our high-quality products.
