### Product description

Sensors embedded in the luminaire deserve first place among the numerous additional options for intelligent products to emit light. With our (usually) a single set themselves react to the change of sunlight, whether human presence nearby.

LED Luminaire RUBI, the company Zamel, has built both a motion sensor and light sensor. This means that responds to virtually all of the changes that are taking place in its surroundings. Independently "decide" about enabling or disabling light in such modes as she made her set.

Customers really appreciate such solutions, because they can adjust the lighting of your home or business according to individual real needs.
