Product description

The wheel is supposedly perfect shape. When it becomes the inspiration for the designer LED luminaires, we have to admit a product of a number of modern applications. Practicality is enhanced when the fixture is part of an intelligent lighting system. Then the light turns on and off by advanced driver settings cooperating with motion sensors and dusk. You can then more to save money on energy bills and more specifically to take care of security in their environment. We must also take into account the envious glances of neighbors, they see the effects of such illumination.

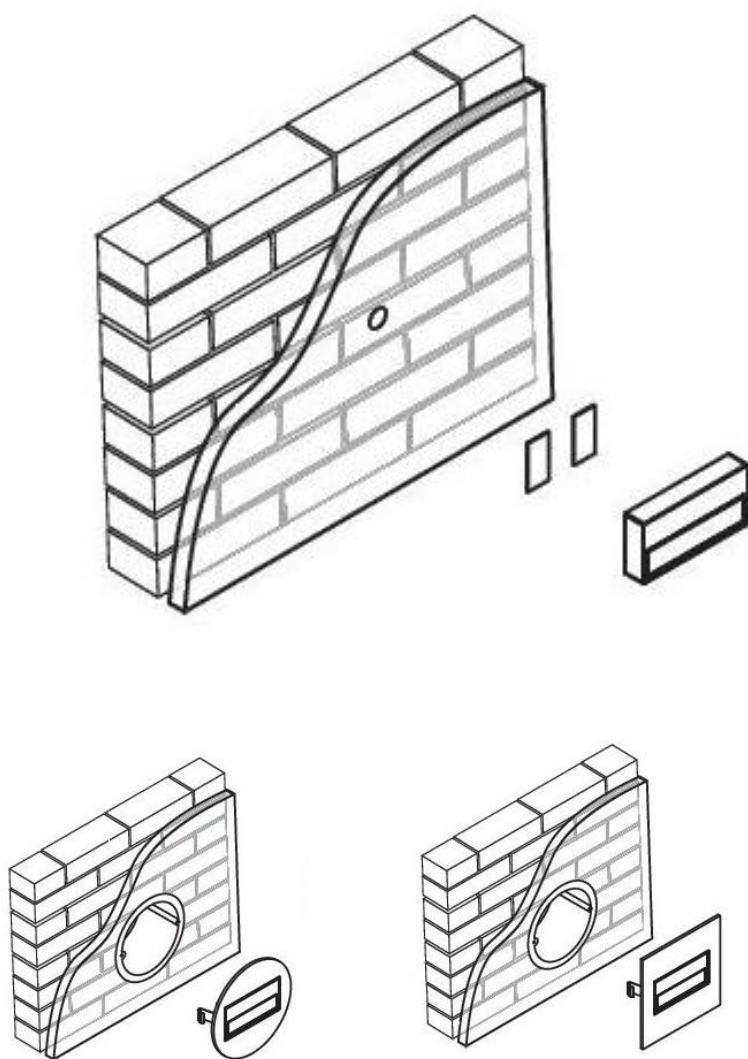

2 mm thick, compact, versatile color and durability of branded LEDs - are just a few advantages of this model!
