Product description

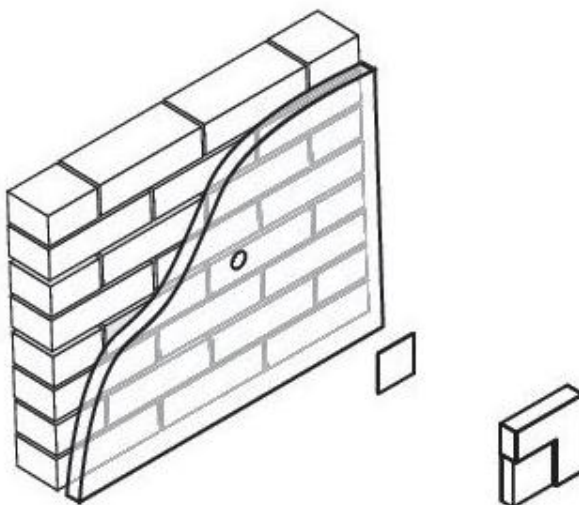

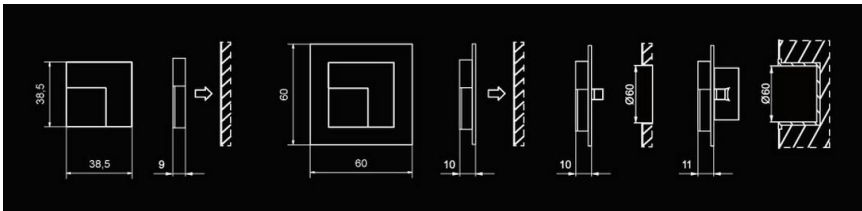

The elegant graphite housing is one of the advantages of LED fixtures TICO - from the company Zamel. The product is designed for surface mounting. Just as well in peace as well as on the balcony. Interesting shape encapsulating a light source gives equally interesting effect when the light is turned on.

The manufacturer proposes to place the housing on opposite corners of some space to illuminate for example. Relief. However, each customer has its own original idea. It is used to implement durable products. The durability of LEDs CREE which the housing is estimated at 40 thousand. hours of continuous illumination. In addition, energy efficiency and the possibility of drawing from solar energy, makes the luminaire product of the future.

TICO

- Luminous flux emitted by the fiber element
- Modern design based on the square
- Version with an additional one-piece or decorative element base
