### Product description

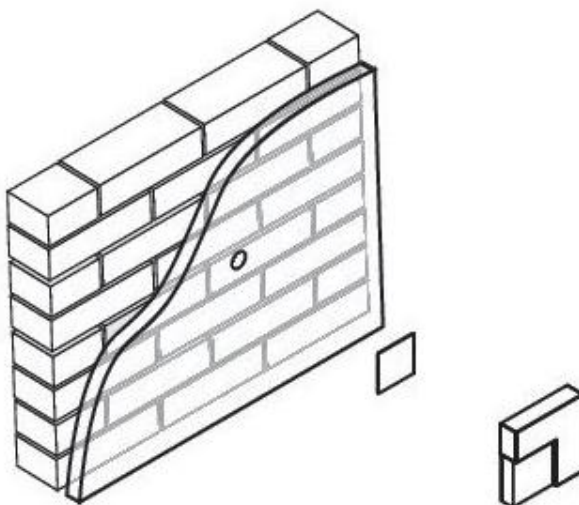

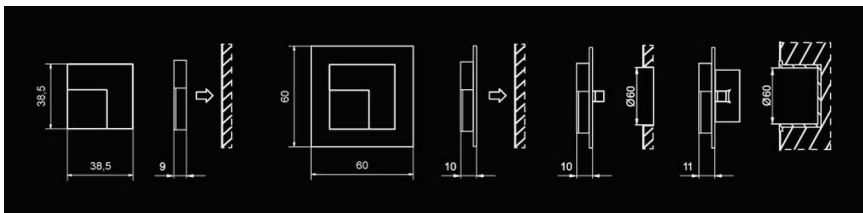

TICO square LED luminaire emits light from the corner of the enclosure. It is small and has only 6x6 cm and 10 mm thick. This allows you to hide it among the decorations and the inclusion creates light in the room (or outside) a completely different climate. Due to the inspirational to the shape of interesting projects, we decided to choose this setting for our offer.

The manufacturer guarantees durability and high quality. Used as a light source LEDs are an investment for years, which will surely pay for itself several times at low energy bills. The model works as an addition to intelligent lighting systems, where the next example. LED strips our production, can complement the backlight stairs.

#### TICO

- Luminous flux emitted by the fiber element
- Modern design based on the square
- Version with an additional one-piece or decorative element base
- The availability of different versions of the body and the color of the emitted light
