LED luminaire - TICO - stainless steel -14V - without frame

Price	16.21 Euro
Availability	Available
Shipping time	10 days
Number	1307
Manufacturer	LEDIX

Product description

A small LED luminaire TICO, from a wide range Zamel company, is a product worth mentioning. In addition to other lines inspired by geometry, we have here the largest decorative function. The light is emitted from the corner to give interesting opportunities to create illumination.

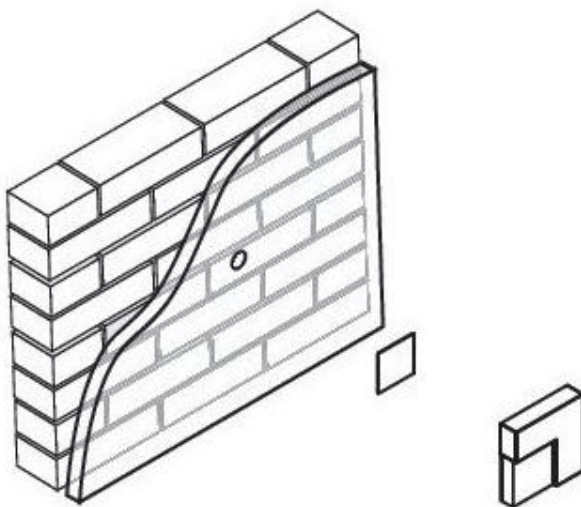

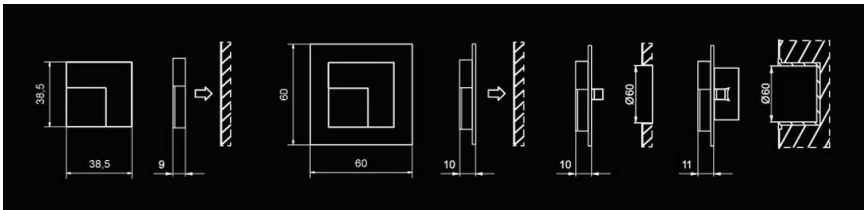

Option fixtures without a frame is perfect for those who appreciate precision in their endeavors. The width and height is less than 4 cm and a thickness of just 9mm. These dimensions allow you to put TICO in very different corners.

In our opinion, except for the illumination of decorative detail is ideal for compositing light on larger surfaces, eg. In the hallways or stairwells. Technical parameters (IP44) allow the housing also work well outdoors.

TICO

- Luminous flux emitted by the fiber element
- Modern design based on the square
- Version with an additional one-piece or decorative element base
- The availability of different versions of the body and the color of the emitted light
