## Product description

LED luminaire housing the color of aluminum is one of the models TIMO, Zamel company. Inspired by popular figure geometric 7,3x7,3cm is about the size and thickness of 10mm. Most often used to light the furniture or in the compositions on the walls of the room, the office, or in outer space arrangements.

Fantasy designers is unlimited. The light is emitted from one corner fittings as standard up / down and sideways, or simply down or up, if the project foresees the installation of a set at an angle.

It is a surface mounted. The customer can choose according to your needs light color from white to changing RGB colors.

**TIMO**

- Luminous flux emitted by the fiber element
- Modern design based on the square
- Enhanced functionality
- Version with an additional one-piece or decorative element base
- The availability of different versions of the body and the color of the emitted light
- Increased exterior dimensions compared to the twin series of luminaires TICO
