Product description

Something for the fans patyn wooden furniture. 5cm in width and 5cm high and 9 mm thick LED luminaire TIMO can be a great way to show our favorite piece of furniture in an interesting way - by backlight. Mounted on a wooden dresser with its patinated emit a beam of light housing on any item placed on the furniture. This somewhat eccentric decoration, but which hides many of today's fashionable solutions.

First of all - energy-efficient LEDs for durability estimated at 40 thousand. burning hours. Second - IP44, that is to be used outdoors as well. Thirdly - a simple surface mounting glue or tape. Fourth - priceless - the envious eye of visitors seeing the effect after dark.

TIMO

- Luminous flux emitted by the fiber element
- Modern design based on the square
- Enhanced functionality
- Version with an additional one-piece or decorative element base
- The availability of different versions of the body and the color of the emitted light
- Increased exterior dimensions compared to the twin series of luminaires TICO
