Product description

TIMO LED luminaire with RGB controller is the solution for lovers of frequent changes in the interior design. With the changing colors of illumination can meet even part of the need for change, but do not need to immediately do the repair.

The installation of this model, the company Zamel, it is possible only inside the building in a tin with a diameter of 6cm. The equipment works with selected transmitters EXTRA FREE. It operates in ON / OFF mode, the light color can change abruptly or smoothly, can be dimmable or lightening.

The application is actually optional, of corridors, through staircases and on furniture finishing. In the case of this extended option is worth emphasizing aesthetic and mood, which produce different colors of light.

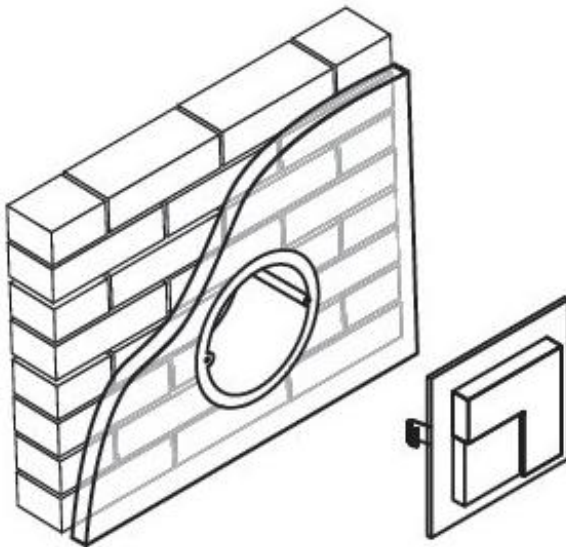

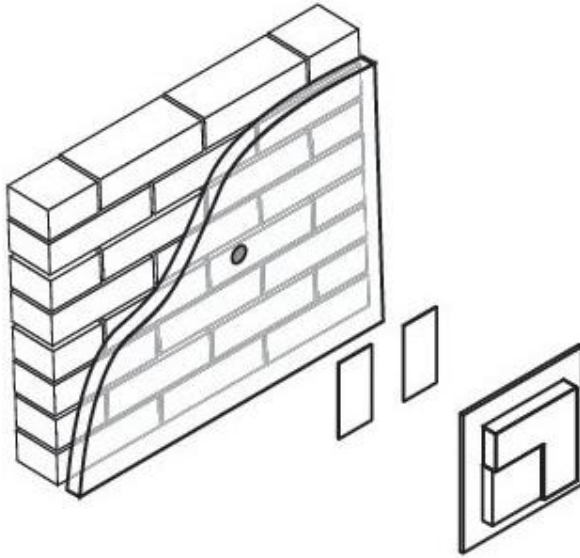

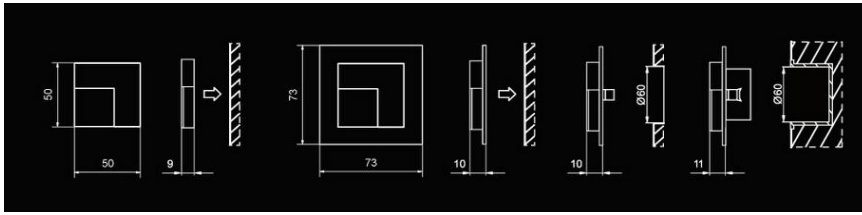

TIMO

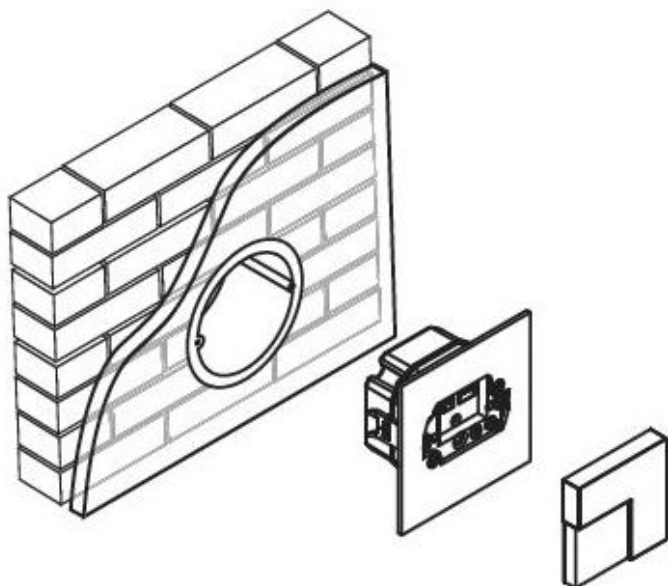

- Luminous flux emitted by the fiber element
- Modern design based on the square
- Enhanced functionality
- Version with an additional one-piece or decorative element base
- The availability of different versions of the body and the color of the emitted light
- Increased exterior dimensions compared to the twin series of luminaires TIMO
