Product description

Stainless steel is identified with nobility. No ima its rust and, therefore, more durable and retains its aesthetic. So are TIMO LED lighting fixtures which is a color steel housing. The manufacturer - the company Zamel, has in its offer high-quality luminaires, which was used as a light source lasting LED lights that can CREE years.

Customers appreciate the decorative value of this model. They use it mostly for decorating walls or facade of a building by means of light composition. Here you have a large range of possibilities, because the color of light is to choose as well as tension. The value of these luminaires are energy efficiency and the opportunity to work with solar panels.

TIMO

- Luminous flux emitted by the fiber element
- Modern design based on the square
- Enhanced functionality
- Version with an additional one-piece or decorative element base
- The availability of different versions of the body and the color of the emitted light
- Increased exterior dimensions compared to the twin series of luminaires TICO
