## LED strip 12v blue - SMD3528 300 / 5m waterproof

Price	<b>15.52 Euro</b>
Availability	<b>Availability - 3 days</b>
Shipping time	<b>48 hours</b>
Number	<b>292</b>
Manufacturer	<b>RESTAN</b>

### Product description

Blue 12V led strip is a great source of light and a way to diversify many spaces. The tape can be installed at home, in the office and in the car. The possibilities of using the product are limited only by your own imagination. The proposed 5-meter tape has 300 blue LEDs. Depending on your needs, you can adjust its length for a specific application. Installation is done using double-sided tape. The product from the RESTAN company is additionally characterized by resistance to water and moisture. Thus, it can be used, for example, in the bathroom.

LED strips - a modern solution capable of lighting advertising, furniture, shop windows and decorative lighting and utility rooms. LED strips offer minimal power consumption while providing high performance light. The small size combined with flexibility allows its use PCB where other light sources do not permit their assembly, or is difficult. The use of LED strip leaves only limited by your imagination.

Products offered by RESTAN feature - the highest quality of workmanship, found thanks to the recognition of the various embodiments where the investor require reliability and durability of LED lighting. LED strip production is monitored at every stage - from purchasing the highest quality components in the packaging process. This attention to detail ensures its reliable operation for many years.

Components for each tape led to: the highest quality LEDs, PCB laminate tested, selected resistors. Yes precise selection of components allows you to ensure uninterrupted operation LED strips for many years. Each roll of tape led a process of thorough quality control, ensuring our customers receive the highest quality merchandise. Highest quality LED strip is confirmed by a 2 year warranty.

### SPECIFICATIONS

Dimensions Width 8 x thickness of 2.9 [mm]  
Power supply 12 V DC  
Power Consumption 2A/5m (0,4A/m)  
Power 24W/5m (4,8W/m)  
Type of applied LED SMD 3528  
LED qty 300  
LED viewing angle 120 degree  
Ability to cut LED strip marked cutting line every 3 LEDs  
Mounting a flexible laminate (white)  
Mounting M adhesive tape placed at mid-life  
Life 30 000 - 50 000 hours
