LED strip 5m - cold white - SMD 3528 600 diodes / 5m waterproof

Price	27.42 Euro
Availability	Availability - 3 days
Shipping time	48 hours
Number	462
Manufacturer	RESTAN

Product description

5m cold white LED strip will help you diversify the interior and highlight specific items. Regardless of whether it will be furniture, mirrors, paintings or shop windows, the tape will be perfect. The tape has as many as 600 LEDs installed, which emit bright light and have a service life of up to 50,000 hours. The tape is also resistant to water and moisture, so it can be used in the bathroom. A big advantage is also the easy installation with the use of adhesive tape. By choosing RESTAN products from our offer, you can be sure that you are reaching for the best solutions.

LED strips - a modern solution capable of lighting advertising, furniture, shop windows and decorative lighting and utility rooms. LED strips offer minimal power consumption while providing high performance light. The small size combined with flexibility allows its use PCB where other light sources do not permit their assembly, or is difficult. The use of LED strip leaves only limited by your imagination.

Products offered by RESTAN feature - the highest quality of workmanship, found thanks to the recognition of the various embodiments where the investor require reliability and durability of LED lighting. LED strip production is monitored at every stage - from purchasing the highest quality components in the packaging process. This attention to detail ensures its reliable operation for many years.

Components for each tape led to: the highest quality LEDs, PCB laminate tested, selected resistors. Yes precise selection of components allows you to ensure uninterrupted operation LED strips for many years. Each roll of tape led a process of thorough quality control, ensuring our customers receive the highest quality merchandise. Highest quality LED strip is confirmed by a 2 year warranty.

TECHNICAL SPECIFICATIONS

Size 8mm x 2.9 [mm]

Power supply - 12 V DC

Current consumption - 4A/5m (0.8 A / m)

Power consumption - 48W/5m (9.6 W / m)

Type of LEDs used - SMD 3528

Number of LEDs - 600

LED angle 120 degrees

LED strips can be cut - cut line marked every 3 LEDs

Flexible laminate substrate (white)

Mounting 3M adhesive tape placed on the laminate

Life 30 000 - 50 000 hours
