Product description

LED strips for the bedroom are a stylish way to illuminate a specific space and create a unique atmosphere in it. The tape with 150 green LEDs will perfectly fit into any space and give it a unique character and glow. RESTAN lighting is characterized by very high durability and resistance to all kinds of mechanical damage. In addition, the led strip is resistant to water and moisture. Do not hesitate and opt for the best-quality lighting for your interior, which will emphasize its character and increase the functionality of the bedroom space.

LED strips - a modern solution capable of lighting advertising, furniture, shop windows and decorative lighting and utility rooms. LED strips offer minimal power consumption while providing high performance light. The small size combined with flexibility allows its use PCB where other light sources do not permit their assembly, or is difficult. The use of LED strip leaves only limited by your imagination.

Products offered by RESTAN feature - the highest quality of workmanship, found thanks to the recognition of the various embodiments where the investor require reliability and durability of LED lighting. LED strip production is monitored at every stage - from purchasing the highest quality components in the packaging process. This attention to detail ensures its reliable operation for many years.

Components for each tape led to: the highest quality LEDs, PCB laminate tested, selected resistors. Yes precise selection of components allows you to ensure uninterrupted operation LED strips for many years. Each roll of tape led a process of thorough quality control, ensuring our customers receive the highest quality merchandise. Highest quality LED strip is confirmed by a 2 year warranty.

TECHNICAL SPECIFICATIONS

Dimensions width 10 x thickness 2.9 [mm]

Supply voltage 12 V DC

Current consumption 3A / 5m (0.6A / m)

Power consumption 36W / 5m (7.2 W / m)

The type of the SMD 5050 diode used

Number of LEDs 150

The LED beam angle is 120 degrees

Possibility to cut LED strip marked cutting line every 3 LEDs

Flexible laminate substrate

Mounting method 3M self-adhesive tape placed on the laminate

Service life of 30,000 - 50,000 hours
