## Led strip 5m professional - SMD5730 - CRI95

Price	<b>95.47 Euro</b>
Availability	<b>Available</b>
Shipping time	<b>4 days</b>
Number	<b>1744</b>
Manufacturer	<b>RESTAN</b>

### Product description

LED strip 5730 allows you to emit light in white. The product will be perfect as a decoration in any interior and will be able to give it a unique character and glow. The tape is able to meet the expectations of even the most demanding customers who want to introduce very interesting decorations to the interior that will perfectly match the expectations. Buy high-quality LED strip and use it as a source of lighting in the apartment or as a decoration that will refresh the interior. The assembly of the products is not complicated and takes place only with the use of double-sided adhesive tape.

LED strips - a modern solution capable of lighting advertising, furniture, shop windows and decorative lighting and utility rooms. LED strips offer minimal power consumption while providing high performance light. The small size combined with flexibility allows its use PCB where other light sources do not permit their assembly, or is difficult. The use of LED strip leaves only limited by your imagination.

Products offered by RESTAN feature - the highest quality of workmanship, found thanks to the recognition of the various embodiments where the investor requires reliability and durability of LED lighting. LED strip production is monitored at every stage - from purchasing the highest quality components in the packaging process. This attention to detail ensures its reliable operation for many years.

Components for each tape led to: the highest quality LEDs, PCB laminate tested, selected resistors. Yes precise selection of components allows you to ensure uninterrupted operation LED strips for many years. Each roll of tape led a process of thorough quality control, ensuring our customers receive the highest quality merchandise.

LED strip is a product that is now becoming more and more popular. Customers appreciate the versatility of such a solution, thanks to which in one way can illuminate various places. LEDs are easy to use, affordable and very economical.

LED strip 5m professional - SMD5730 - cri95 model is enjoying great interest. Not surprisingly, in the end it can be used in very different areas. As the name suggests, it is a professional product and it is in such moments reveal all its features. The small size and flexibility of PCB make the tape can be used in all places where the installation of other light sources is very difficult. Due to great parameters, before any use of LED strip prevents you only your imagination.

Three years warranty is confirmation of the high quality of each component used in the production process. The product has the class of protection IP 20, which can be used in areas exposed to higher humidity such as kitchen or bathroom. Tight cover also prevents the penetration and destruction of LEDs by doing the dirt. Assembly of the product is easy, is mediated by double-sided adhesive tape. As a result, it can be installed even in tight, hard to reach places. The tape can be cut every 50 or 100 millimeters. So you can shorten it or trim adjusting to specific requirements. Installation is clean and attractive, does not require additional investment funds. All this speaks in favor of such a solution

Type LED - SMD 5730

Number of LEDs - 60 pcs / m

Power consumption - 15.4 W / m

Luminous flux - 1760 lm / m

Light output - 114 lm / W

Degree of protection - IP 20

Editing - double-sided adhesive tape

Supply voltage - 12V or DC24V DC

Section cutting:

50 mm (3 LEDs) / 12V

100 mm (6 LEDs) / 24V

---

Dimensions - 5000 x 10 x 2 mm  
Warranty - 3 years

This product has additional options:

**Supply voltage:** 12V , 24V

**Light color:** Biała ciepła / warm white / Warmweiß , Biała dzienna / daylight / Tageslicht
