LED strips 5m professional - SMD5630/300 SAMSUNG

Price	90.29 Euro
Availability	Available
Shipping time	5 days
Number	1896
Manufacturer	RESTAN

Product description

LED strips - a modern solution capable of lighting advertising , furniture, shop windows and decorative lighting and utility rooms. LED strips offer minimal power consumption while providing high performance light. The small size combined with flexibility allows its use PCB where other light sources do not permit their assembly , or is difficult. The use of LED strip leaves only limited by your imagination .

Products offered by RESTAN feature - the highest quality of workmanship , found thanks to the recognition of the various embodiments where the investor require reliability and durability of LED lighting . LED strip production is monitored at every stage - from purchasing the highest quality components in the packaging process . This attention to detail ensures its reliable operation for many years.

Components for each tape led to : the highest quality LEDs , PCB laminate tested , selected resistors . Yes precise selection of components allows you to ensure uninterrupted operation LED strips for many years. Each roll of tape led a process of thorough quality control , ensuring our customers receive the highest quality merchandise.

LED strip 5m professional waterproof IP68 - SMD5630 / 300 EDISON is a product fulfilling its role as one hundred percent. It can be used in all types of investments, which plays a key role adequate lighting, and the tape itself may be exposed to adverse external conditions. The use of this product will meet all your expectations.

LED is a modern way to get an aesthetic lighting. First of all, it is easy to install, inexpensive and long-lasting solution. Not surprisingly, the manufacturer guarantees for not less than three years of warranty. At this time, the product is not damaged. Also, LED life, which is several years, ensures that the purchase of LED strips SMD5630 300 Edison is a very good idea.

In this case, power consumption is 15.84 per meter. You'll notice this by reducing the amount of your electricity bill. At the same time, this product has high luminous efficiency. Easy on the eye, natural light LED is a real bull's-eye.

LED strip can be freely installed in different locations. This is due to the high degree of flexibility of the tape and the possibility of shortening its length at 50 or 100 millimeters. In addition, installation requires only the use of silicone neutral. This allows easy it can be hidden even in tight, narrow niches, the cornices and such places. The more that this model is waterproof (IP68). It can also be installed outside.

Type LED - SMD 5630 EDISON
Number of LEDs - 60 pcs / m
Power consumption - 15,84 W / m
Luminous flux - 2350 lm / m
Light output - 157 lm / W
Degree of protection - IP 20
Installation - double-sided adhesive tape
Supply voltage - DC24V DC
Section cutting

- 100 mm (6 LEDs) - 24 V
Dimensions - 5000 x 10 x 4,5 mm
Warranty - 3 years

This product has additional options:

Supply voltage: 24V

Light color: Biała ciepła / warm white / Warmweiß , Biała dzienna / daylight / Tageslicht , Biała zimna / cold white / Kaltweiß
