## LED strips 5m professional waterproof IP68 - SMD5630/300 DURIS E5

Price	<b>113.58 Euro</b>
Availability	<b>Available</b>
Shipping time	<b>5 days</b>
Number	<b>1743</b>
Manufacturer	<b>RESTAN</b>

### Product description

LED strips - a modern solution capable of lighting advertising , furniture, shop windows and decorative lighting and utility rooms. LED strips offer minimal power consumption while providing high performance light. The small size combined with flexibility allows its use PCB where other light sources do not permit their assembly , or is difficult. The use of LED strip leaves only limited by your imagination .

Products offered by RESTAN feature - the highest quality of workmanship , found thanks to the recognition of the various embodiments where the investor require reliability and durability of LED lighting . LED strip production is monitored at every stage - from purchasing the highest quality components in the packaging process . This attention to detail ensures its reliable operation for many years.

Components for each tape led to : the highest quality LEDs , PCB laminate tested , selected resistors . Yes precise selection of components allows you to ensure uninterrupted operation LED strips for many years. Each roll of tape led a process of thorough quality control , ensuring our customers receive the highest quality merchandise.

LED strip 5m professional waterproof IP68 - SMD5630 / 300 DURIS E5 is a product of the highest quality. As a result, it is a proposition of our store to use for any type of professional investment, which are important parameters of a particular solution. It has a class of protection IP 68. This is a very high degree of resistance to external conditions. This model of LED strips is recommended for use in all unusual places. With one hundred percent sure it will meet the objectives vested in him.

Restan product has a five-year warranty. This provides the best quality of each element component of the total composition. Excellent component selection operation guarantee strip LED strip for many years. Each separate reel LED strip is closely monitored. With this approach, you can be sure on the excellent quality of the proposed LED lighting.

The installation of this type of device is also very simple. You do not need to use the services of a professional. With equal success can do layman who do not have much knowledge about electrical engineering. Mounting led strip on a flexible substrate FPC is done through the silicone neutral. As a result, the led strip can be placed even in a seemingly unfavorable, such as the narrow and tight spaces.

Cosmetic tape LED emits light at 120%. Thanks to evenly illuminate every surface, while highlighting its advantages. Attention to every detail testifies to the professionalism. Let yourself know that and use LED strip IP68 - SMD5630 / 300 DURIS E5 also in your company.

Type LED - SMD 5630 DURIS E5

Number of LEDs - 60 pcs / m

Power consumption - 15,6 W / m

Luminous flux - 2100 lm / m

Light output - 135 lm / W

Degree of protection - IP 68

Installation - silicone neutral

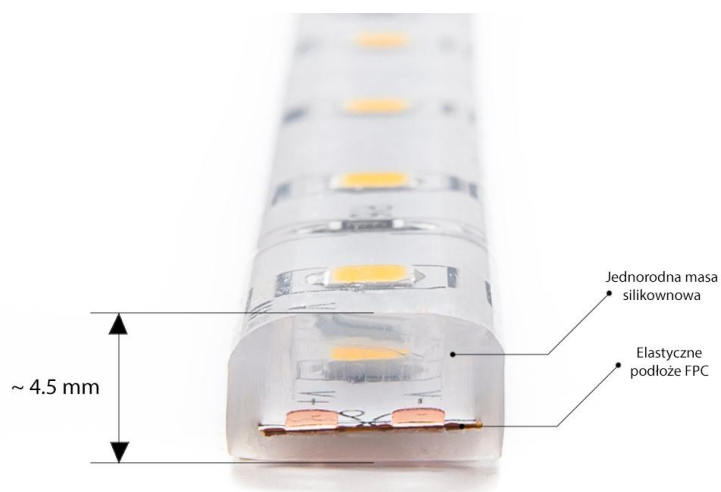

Supply voltage - DC24V DC

Section cutting

- 100 mm (6 LEDs) - 24 V

Dimensions - 5000 x 10 x 4,5 mm

Warranty - 5 years

This product has additional options:

**Light color:** Biała ciepła / warm white / Warmweiß , Biała dzienna / daylight / Tageslicht , Biała zimna / cold white / Kaltweiß
