Product description

Product Name: 5 IN 1 Smart LED Controller

Model No.: LS2

Voltage: DC12V/24V

Output: Max. 6A/Channel, Total output Max.15A

Size: 142*38*23mm

Currently, the lighting in the apartment can be controlled using a smartphone. For this purpose, it is enough to reach for the LED dimmer available in our offer. The device is able to work with many different tapes and allows you to conveniently manage the lighting system throughout the apartment. With a smartphone or a dedicated remote control, you can freely change the color or intensity of lighting in a specific space. Our offer also includes many other products that enable lighting control.

Super Compatibility

Single Color
LED Strip

CCT LED
Strip

RGB LED
Strip

RGBW LED
Strip

RGB+CCT
LED Strip

2.4GHz Remote Control

Compatible with 8-zone remote controller, control distance up to 30m

APP phone control

Mi-Light WiFi box is needed for APP control

Auto-transmitting function

Controllers can send the commands from the remote control to another, which makes the control distance limitless. (The distance from one light to another has to be within 30m)

Auto- synchronization

When the two or more controllers controlled by one remote, it will be auto synchronizing in the same dynamic mode, same speed.
