### Product description

When creating your individual system Milight and bet on LED color changing, it is necessary to choose a great MILIGHT it - 4-Zone RGB / RGBW Smart Panel Remote Controller - T3. This device will allow you to determine any color in any room. Take advantage of all the opportunities that gives you the use of this modern system.

The remote control has a range of functions. It can be used as a dimmer - perfectly match the intensity of the light to the circumstances. The proposed product allows you to create four zones of individual control. Installation is very simple, and everyday use - even banal. The color is determined through a panel of scale. As a result, using only one finger can be set all the parameters of use of the panel. The number of colors that can be utilized is about 16 million. This huge amount of really impressive.

MILIGHT - 4-Zone RGB / RGBW Smart Panel Remote Controller - T3 operates over a distance of 30 meters of control. You can install it in any room in the interior and from there any way to manage lighting elsewhere. All functions will be on hand. LED strip RGB and RGBW are increasingly being chosen by buyers who appreciate that we really buy several products in one. Satisfaction for years - guaranteed. Therefore, go for Milight system, which must necessarily enrich the touch panel. It's simple, inexpensive, but very functional solution for everyone.

Product Name: 4-Zone RGB/RGBW Smart Panel  
Remote Controller  
Model No.: T3  
Working Temperature: -20 -60°C  
Voltage: AC90~110V or AC180~240V  
Transmission Frequency: 2400-2483.5MHz  
Modulation Method: GFSK  
Transmitting Power: 6dBm  
Control Distance: 30m  
Panel Size: 86\*86mm

## 4-Zone RGB/RGBW Smart Panel Remote Controller

2.4GHz wireless transmitting  
4-zone individually control

## 2.4GHz wireless transmitting 4-zone individually control

Easy installation, safe and reliable

## Simple but multi-functional

16 million  
colors

Brightness  
Dimming

Contextual  
Mode

2.4G

Distance  
remote control

Sensitive  
Touching

Scratch  
Resistance

## 4-zone individually control

Each zone control countless lamps or controllers

## 2.4GHz wireless transmitting

Adopt 2.4GHz technology, 30m control distance

### Compatible RGB/RGBW series

Control all Mi-Light RGB/RGBW LED bulbs,  
RGB/RGBW LED controllers

### 16 million colors

16 million colors, choose your own color

### 1~100% Brightness dimming

Dimming(1%~100%) the light randomly

## 9 color changing modes

9 color changing modes, choose the color atmospheres you want

## Sensitive touching

High precision Capacitive touch screen IC,  
Touch Screen is very stable

## High-end tempered glass panel

Scratching and crushing resistance

### Touching button with sound

When touching the button, LED indicating lamp will flash once with different sound

### Button Function Diagram
