### Product description

#### Important Information

The purchase a piece in the store means the purchase 1 linear meter of the profile or cover

If you want to buy a profile that has a length of 2 meters you have to buy 2 pieces, 3 meters you have to buy 3 pieces, and the multitude of quantity when ordering.

The total length of the aluminum profile or the panel to the profile - is the total quantity of the piece number that was bought in the store.

The choice of the appropriate shipping method will take place at the end of the order process.

[The details of the shipping method and packaging of the aluminum profiles you will find here \(click in the link\)](#)

Profile mortise to be placed inside the disc between the cardboard-plaster or in another corner of where the lighting will positively affect the interior. The course is designed to support installation of LED strips, besides through aperture milk included with the product - get less intense beam of light, building an intimate atmosphere. Such lighting is also a utility dimension - practical, for example. Illuminates the shop windows. We leave you with the final arrangement of the profile, for example. Powder coating. Here is the full flexibility in fine tuning detail.

The total width of the profile is 21mm, tray outside - and inside 18mm - 14mm, height outside - 8,7mm.

Profile recessed into the surface chipboard plaster or ceramic tiles.

To illuminate the interior furniture, cabinets, paintings, exhibition and shop windows.
