Product description

Important Information

The purchase a piece in the store means the purchase 1 linear meter of the profile or cover

If you want to buy a profile that has a length of 2 meters you have to buy 2 pieces, 3 meters you have to buy 3 pieces, and the multitude of quantity when ordering.

The total length of the aluminum profile or the panel to the profile - is the total quantity of the piece number that was bought in the store.

The choice of the appropriate shipping method will take place at the end of the order process. The details of the shipping method and packaging of the aluminum profiles you will find here (click in the link)

Not anodized aluminum profile - without covers

The product you have selected contains only - aluminum profile - does not include the accessories located in the Accessories

Additional accessories like covers, end caps, electricity conductive end cap, mounting bracket, fasteners, mounting springs, proximity switch, micro switch, mounting system and others are available under "Accessories".

If you are interested in longer lengths than one meter, write to us we will quote the delivery cost to you. Transport companies expect additional charges for long shipments.

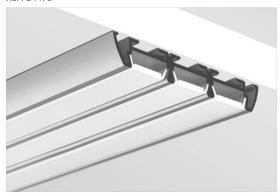

For each country is different maximum length of the profile that we can send. It does not depend on us only by courier. We also do service cutting aluminum profiles to the indicated size - write or call get comprehensive information.

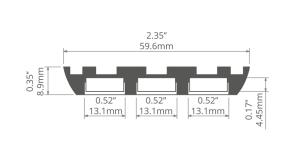

Profile uniwersalne do montażu na powierzchni, wbudowania lub podwieszenia / Universalprofile zur Aufputz, Unterputzmontage oder zum Abhängen

TRIADA

REF. B4476

Budowa opraw o dużej wydajności świecenia. Dobre odprowadzenie ciepła.

Trzy taśmy led do 12,8 mm.

PRZEZNACZENIE PRODUKTU:

do budowy płaskich opraw powierzchniowych o dużej wydajności świecenia.

MONTAŻ:

- montaż za pomocą wkrętów odpowiednio dobranych do podłoża, na listwach montażowych TETRA-43 i TETRA-78, za pomocą klejów montażowych dobranych odpowiednio do podłoża.

Für Leuchten mit hoher Leuchtleistung. Gute Wärmeabfuhr.

Drei Led-Streifen bis 12,8 mm.

ANWENDUNG

- zur Aufputzmontage flacher Leuchten mit hoher Leuchtleistung

MONTAGE

- Montage mit Schrauben angepasst an den Untergrund
 auf Montageleisten TETRA-43 und TETRA-78
 mit Montageklebern angepasst an den Untergrund

Universal Extrusions for surface mount, recessed or suspended applications / Perfiles universales para aplicaciones de montaje en superficie, empotradas o suspendidas

TRIADA

REF. B4476

Construction of high-performance STOS lighting fixtures. Good heat dissipation.

Accommodates three LED strips up to (0.50" / 12.8 mm). Multi-purpose.

APPLICATION

for construction of flat surface lighting fixtures with high luminous efficiency.

ASSEMBLY

- with screws appropriately selected for the mounting surface, on dedicated mounting strips.
- with mounting adhesives appropriately selected for the surface.

Construcción de luminarias STOS de alto rendimiento. Buena disipación de calor.

Tiene capacidad para tres tiras de LED de hasta (0.50" / 12.8 mm). Multiusos.

APLICACIÓN

para la construcción de luminarias planas, empotrables con alta eficiencia luminosa.

MONTAJE

- con tornillos debidamente seleccionados para la superficie de montaje, en tiras de montaje dedicadas.
- con adhesivos de montaje debidamente seleccionados para la superficie.

Profile LED TRIADA is a three-channel profile, which is made of high-quality aluminum. Because aluminum has previously been subjected to double anodizing, the profile has been fully protected against corrosion and mechanical damage. Profile is designed to tapes or strips of a width not exceeding 12,8mm with LED light sources.

Profile LED TRIADA is used in LED lighting LED strips placed on soft or hard, construction, landscape architecture. It may also be mounted in the plane of the substrate sidewalks, in the recesses of suspended ceilings, in passageways, the bike paths, driveways or parking lots. The most common profile is placed in cabinets or sites and serves on a decorative element. Construction of the profile is designed so that when used in areas intended for transport can withstand a standard load, or when maintenance operations are carried out - performance will not be damaged.

It is recommended that the LED profile LED override special for this type of cover K12 or HS12 (available in either milk or transparent). Both guards are made of polycarbonate. It is worth noting that the cover type HS12 is certified, which guarantees its perfect resistance to most of the weather, UV and flammability.

Installation of the profile is very easy and simple to carry out. For its implementation, use double-sided tape, glue or mounting screws, which are the guarantee of the stability of the structure. Mounting plates in cardboard - gypsum is done using springs surface TR. If you have to install the profile on the ceiling type Armstrong and used for this purpose springs TR recommended to additionally apply a special lock washers. It is worth noting that according to the need, there is a possibility to make a luminaire of high-tightness, which will be characterized by a resistance class of IP 67.

Profile LED TRIADA are dedicated polypropyleneend caps, which are designed to protect the profile against the ingress of dust and other undesirable elements that could cause contamination LED strip, which later would result in a deterioration of its light parameters. Caps and other necessary elements to carry out the installation profile are available on our website under "Accessories".

We invite you to familiarize yourself with our offer.

Purpose:

- to illuminate the LED, the strips of soft or hard
- for use in construction, landscape architecture
- to be installed in the plane of the substrate sidewalks, traffic routes, bicycle paths, driveways, parking lots
- to be installed in the plane of cobblestones: driveways, parking lots
- construction of the profile when used in areas intended for vehicle loads and provides standard maintenance and operations
- utilities

set: Anodized TRIADA Profile without covers

PROSTYMONTAŻ

Profil mocujemy do podłoża wykorzystując taśmę dwustronną, klej montażowy lub wkręty, które gwarantują łatwy i pewrry montaż na powierzchni. Ze względu na możliwości zainstalowania trzech pasków wewnątrz profilu może być on stosowa ny jako energooszczędne oświetlenie podstawowe.

SIMPLE MOUNTING

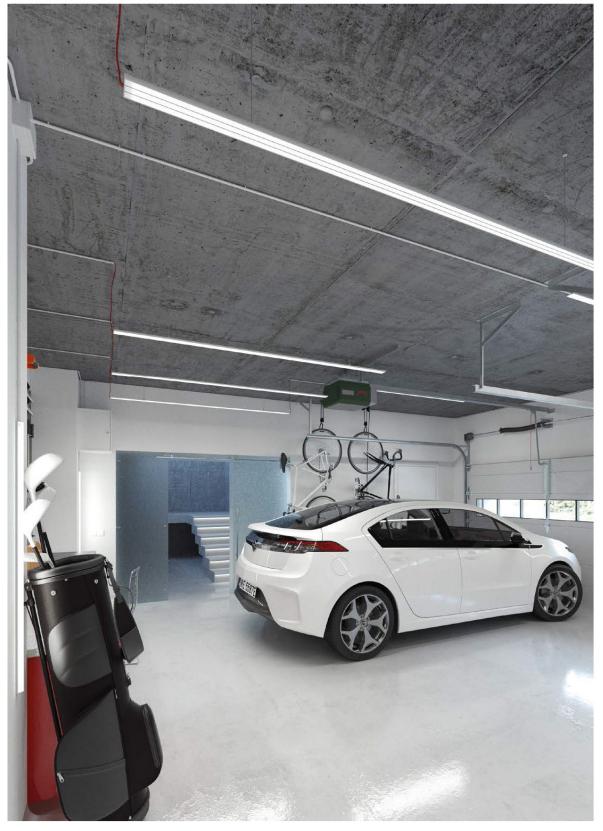

The extrusion is mounted to the surface using double-sided tape, mounting glue or screws, which guarantee easy and secure assembly to the surface. Due to the possibility of installing three strips inside the extrusion, it may be used as an energy efficient basic lighting.

EINFACHE MONTAGE

Das Profil wird mit dem doppelseitigen Klebeband, Montagekleber oder mit den Befestigungsschrauben auf dem Boden befestigt, die die einfache und sichere Montage sicherstellen. Im Hinblick auf die Möglichkeit, 3 Bänder in einem Profil zu installieren, kann es als energieeffiziente Hauptbeleuchtung eingesetzt werden.

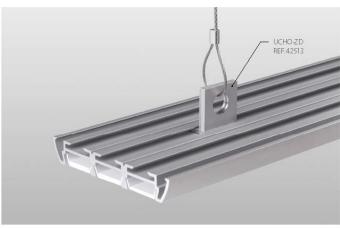

PODWIES ZANIE I ZASILANIE

Element przeznaczony dla opraw wyposażonych w zamek duży. Pełni jednocześnie funkcje złącza prądowego i zawieszki. Przenosi obciążenie pomiędzy oprawą oświetleniową a prętem stanowiącym element zawieszenia. Zawieszka stanowi złącze dla jednego bieguna prądu.

SUSPENDING AND POWER SUPPLY

An element intended for lightning fixtures equipped with a large lock. It simultaneously acts as a current conductor and fastener transferring loads between the fixture and suspension rod. One fastener constitutes a connector for one current pole.

AUFHÄNGEN UND VERSORGUNG

Das Element geeignet für Leuchten mit dem großen Schloss. Es übt die Funktion des Stromkonnektors und Befestigung. Es überträgt die Last zwischen der Leuchte und der Stange, die ein Teil der Befestigungskonstruktion ist. Die Befestigung bildet den Anschluss für einen Strompol.

NIEWIELKA ZAWIESZKA

Ucho ZM przeznaczone jest do zawieszania opraw wyposażonych w zamekduży. Montaż jest prosty i nie wymaga użycia narzędzi. UCHO-ZD służy jako zaczep do współdziałania z ogólnie dostęprymi na rynku elementami typu; karabińczyki, szekle, linki, zaciski do linek, łańcuszki, itp.

SMALLFASTENER

ZM hanger is intended for suspending lighting fixtures equipped with a large lock. Assembly is simple and does not require use of tools. The UCHO-ZD acts as a latch to be used with elements generally available on the market such schooks, carabiners, shackles, ropes, clamps for ropes, chains etc.

KLEINE BEFESTIGUNG

Die Öse UCHO-ZM ist für Aufhängen der -Leuchten mit großen Schlössern geeignet. Die Montage ist einfach und werkzeugfrei. Die Öse UCHO-ZD dient als Haken für die im Handel allgemeinen erhältlichen Elementen wie: Haken, Karabiner, Schäkel, Kabel, Anschlussklemmen für Drähte, Ketten u. a.
